

Newsletter no. 11, Spring 2020

This is a newsletter about our work in the project during January, February & March 2020.

Closing Conference

Because of the Corona pandemic and uncertainty about future restrictions on large gatherings, our Closing Conference which was planned to be held 26.-27. May 2020 is now postponed to **24.-25. November 2020**:

International Cooperation

In week 9 and 10 Ellen Beate was staying in Vancouver. During this stay she had plenty of time to discuss results, publication and the further project with our international partners at UBC, Mariana Brussoni and Susan Herrington.

The Anthology

The anthology from the project is finished, and as we speak it is being printed. It was planned to be launched at our closing conference in May, and even if the conference is postponed, it will be published in late May 2020.

Scientific Articles

Since last newsletter we have published one article:

Obee, P., Sandseter, E. B. H., Gerlach, A., & Harper, N. J. (2020). Lessons Learned from Norway on Risky Play in Early Childhood Education and Care (ECEC). *Early Childhood Education Journal*.

doi:10.1007/s10643-020-01044-6

<https://link.springer.com/article/10.1007/s10643-020-01044-6>

Two articles are accepted for publication, and one is in review.

We also have seven articles in progress and plans for more. The Corona situation has resulted in many things being cancelled, but this means more time for writing 😊

Internet Resource

The draft for the internet resource is finished and sent out on test among the project participants, ECEC institutions, the coordinating group, the scientific reference group and other stake holders. The resource will be launched during the last week of May 2020.
