

# Newsletter no. 12, Spring 2020

This is the last planned newsletter from the EnCompetence project. The project was scheduled to be completed in July 2020. Due to the COVID19 pandemic we have therefore been granted an extension of the project until December 1, 2021. In the remaining time of the project, the project group will mainly work on disseminating results; through articles and conference presentations. There will be no newsletters during this period, but those who want to update themselves on new publications and dissemination will find this on the project page in the [Cristin system](#). In short, the status of EnCompetence in June 2020 is as follows:

## Closing Conference

Because of the COVID19-pandemic our Closing Conference which was planned to be held May 26-27, 2020 is postponed to **November 24-25, 2020**: <https://dmmh.no/fei/avslutningskonferanse-for-prosjektetnbspbr-kompetanse-for-utvikling-av-ba>

We don't know yet if we are able to host a conference in November 2020, and we might have to move it to spring 2021.
